

Found Defects

Sign Up feature does not save the user in the system

Description: Whenever we register a user it is not possible to login with it and indeed it is possible to Sign Up the same user again.

Steps to reproduce:

Scenario: User is not able to register twice

Given hero GO was already registered

When I click in the Sign Up link

And fill the Sign Up page with following information:

userName	password	name	email	day	month	year	
GO	321645987	George Orwell	go@oceania.com	21	December	1984	

And I try to Sign Up

Then I should see that I am still in the Sign Up page

ISSUE: currently it is possible to register the user again

Scenario: Just registered user can login

Given hero GO was already registered

When I click in the Login link

And fill the Login page with following information:

userName password	
GO	321645987

Then I should see the Profile page

ISSUE: currently after registering a hero it is not possible to login

Sign Up feature allows hero to be registered with invalid date

Description: Date is not being checked whenever we register a new hero. So non-existing dates such as 31st February can be added to the system.

Steps to reproduce:

Scenario: User is not able to register twice

Given I navigate to the Home page

When I click in the Sign Up link

When fill the Sign Up page with following information:

|userName |password |name |email |day |month |year |

|joel |1234567 |Joe |joe@joe.com|31 |February|2018 |

And I try to Sign Up

Then I should see that I am still in the Sign Up page

ISSUE: currently we can register hero with DOB of 31st February
